

# Ivan Firsov

Front-end developer

## PROFILE

I like clean and maintainable code. I am always willing to learn new technologies.

## EXPERIENCE

### Frontend developer, Mindbox — 2022-2026

User-facing control panels (React). Redux, Apollo GraphQL.

JS SDK for websites. AI-assisted rewrite of SDK to TypeScript: increased safety and test coverage.

Integrations with mobile SDK.

Intern mentoring.

### Frontend developer, Popmechanic — 2018-2021

JS SDK for websites (popups and embedded feedback forms). Vanilla JS, prototypes in preact. Integrations with various analytics solutions also present on the sites.

User-facing control panel (React).

Debug utility browser plugin for Chrome.

### Frontend developer, Digi-soft — 2017-2018

React Native iOS and Android interfaces for custom ERP system.

Static websites using React and Gatsby.

### Full-stack developer, OnlinePBX — 2013-2017

Internal admin panel, user-facing control panel, CRM integrations, plugins for browsers. PHP and nodejs backend, Vanilla JS, angular and react frontend.

New backend development using node/mongo/RabbitMQ.

Call-back widget for client sites.

Intern mentoring.

## EDUCATION
